

Motivation for the high (25% or more) SafeAssign/Turnitin similarity report

I, Kevin Bernard, (Full name) have read and understood the 4 points below. I declare that this assignment has been written in my own words and that there is a valid reason for the high similarity report as stated below. (Please motivate the reason in the box provided below). I also understand that if the reason is not valid and plagiarism is detected that the Intellectual Integrity Policy comes into effect.

Plagiarism is the use of words, ideas or images of another person as ones' own without adequately or appropriately acknowledging the source. The Independent Institute of Education (The IIE) views plagiarism as an act of academic dishonesty and will handle it accordingly.

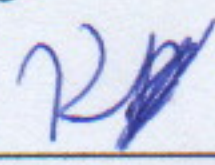

1. I am aware of the approach of The IIE to plagiarism and intellectual integrity.
2. I am aware that the Plagiarism Policy and the Student Code of Conduct prescribe the consequences of plagiarising.
3. I am aware that referencing guides are available in my student handbook or equivalent and in the library and that the following them is a requirement for successful completion of my assignment.
4. I am aware that should I require support of assistance in using referencing guides to avoid plagiarism I should approach the lecturer, the librarian or the campus ADC or equivalent.

Provide the reason(s) for the high Similarity Percentage

My case UML was picked and my
